

## SCITS

## SEMESTERED?

### Semester System

A committee of teachers elected by the principal, headed by Chairman W. T. Scott, have been appointed for about 3 weeks now. Their objective is to investigate alternate methods of time tabling.

Presently this is only an investigation, being done in the best interests of the students by the elected staff in order to give the kids the best breaks possible.

Only if an appropriate new system is decidedly deemed 'better' than our present system is it hoped to be in effect next year.

This committee is not secretly confined to a chosen few; all staff members are welcomed to contribute their views, and it is the committee's full intent to keep the staff informed of the developments.

Since there is not all that much known about a few of the systems under investigation such as Modular, full and half credit systems, the committee is kept busy hunting up institutions familiar with these various methods in order to thoroughly weigh each to discover the most beneficial for the student body.

And yes, the semester system is but one of the systems in question. Semestering may appear to be one of the more widely acclaimed systems, but actually 65-70% of the province is on our present system.

As with each system the advantages and disadvantages must be completely discussed.

### Semestering S.C.I.&T.S.

#### Advantages

- longer lunch period
- get to know the teachers better
- the teacher has more time in class to help students with problems than our system
- not as much homework because of less classes
- seniors may graduate earlier

#### Disadvantages

- students quickly lose concentration especially in 80 min. classes
- selection lost in course choices
- skipping a semester of a language or Math due to time table set up, could set student back

Hey! This is it!!! Our first big dance with our first big group.

**WHEN?** Friday, Oct. 22nd.  
8:00 p.m.

**WHERE?** That sumptuous Dance Hall—the SCITS GYM.

**HOW MUCH?** \$2.00 per person.

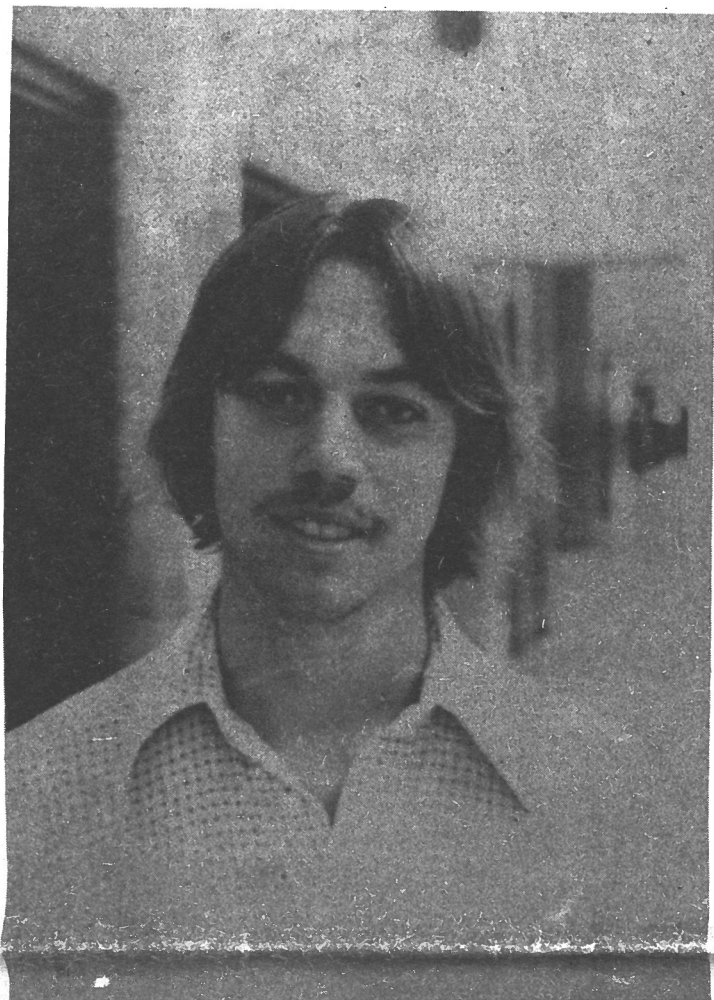

**WHO?** BOOJUM (WOW!!!)

BE THERE!!!!!!

About assemblies, which can be rather boring, and too frequent, Warren suggests that they include the main topic or problem, but also have a bit of entertainment for us. If there are too many of them, they get boring no matter what. We should have regular, dull ones.

So far this year, the council has only sold chocolate bars. The results are very good. We are 300.00 in the good. Many of the school clubs are in debt, though, and many find raising ideas are coming through. Some of the Chocolate bar money will be used to get the clubs that are in debt out of debt, and then decide what is to be done about the rest of the proceeds.

The yearbooks are not going to be available this year unless you get out there and support it. We need people and support it. The going price for them is about \$7.00 for hard cover and \$4.00 for soft.

El Presidente Rhude

### STUDENT COUNCIL

Warren Rude is our Students Council President. He is in Grade 13 at our school and is planning many different events for this school year. Many events will be occurring: Dress back day, Frosh and Homecoming Queens run by Micheal Rivant and Cheryl Baxter; Mr. Scits; The Scits Revue; Talent Shows; and of course, the Dances. The first dance is scheduled for Oct. 22, in celebration of Frosh Queen, but the group has not been secured as of yet because Mr. McCahill has not agreed to it yet.

Warren has already started to make up several committees which will help the Student's Council during the year. Two of the Committee's are the Dance Committee, consisting of Brenda dearing, Stacey Clarke, Tom Thorburn, Jim Rolfe, Kathy Cormie, Martha Allen, Bill Font, and Crystal Knowles so far. The other Committee, is the Publicity Committee, consisting of Brena Ballantyne, Bill Font, Bev Rowe, Brenda Allen, so far.

For dress back day this year, Warren would like to have awards, if possible, for the best costumes of each era, and more focus on the other areas besides the fifties, which everyone usually dresses up in. Many of us were disappointed when the Red Feather Games were cancelled. Most disappointed was the United Appeal, to whom all the proceeds of the games went. So, to continue our support of the Appeal, Warren thought that we might have a Christmas dance with all of the proceeds going to the appeal.

Warren has many new ideas for the school year, and some of them are:

1. Winter Carnival
2. Car Rally
3. Pep Rallies (before games)
4. Costume Day

1. The winter carnival has not been completely planned yet, if enough people turn out to help with the preparations. It would be held in early March, after the exams, and before the March break, and will consist of booths, games, fortune tellers, and maybe a dance (records and tapes) going on at the same time in the gym. A Friday and maybe a Saturday too, would be set aside for the carnival.

2. Warren plans to present a competition between the schools called a Car Rally. He will present it to the other Presidents when at the next meeting of the other schools. This would be a different competition, letting the not so athletic of us participate.

3. The pep rally's we have now, in the cafeteria, are alright, but wouldn't you like to have them, lets say, the period before you get out? Warren still has to get the support of the staff, and hopes of course, the students.

4. Because Frosh week is so close to Halloween we can't have a dance the Thursday before Halloween a costume day. You would come to school dressed up as you would Halloween night.

Warren has asked Mr. McChill about having an initiation for the grade nines during Frosh Week. but the prospects are not hopeful. It seems that the 10's and up get out of hand and Mr. McChill and many other people think it's a disaster. But if it was well organized it would be fun for everyone, including the grade nines.

# SCITS LOVES WINNERS

"School Spirit" what would it be without your school cheerleaders? The best response to that can be answered by the students of S.C.I. here are some:

"They really promote school spirit, and I think they are the best in the city."

"They use their positions to boast their own popularity."

"They're all right!"

"Our senior cheerleaders are pretty good, they practice alot and hard."

Our cheerleaders do practice hard, they were chosen in May and practiced all summer. Excitement starts building up in the squad when they go back to school in the fall, and prepare for the football and soccer games. The Captain and Co-captain were selected by the team themselves, they are Jewel Laird, captain and Kim Hillman, co-captain. There is also the Golden Bears Contest in which the cheerleaders take part in every year. And on Saturday night Oct. 2, our senior cheerleaders captured the glory of 1st place.

But it's not over after the football season, when basketball rolls around, our cheerleaders are right there, with all the pep and spirit they can stir up.

When asked do you enjoy being a cheerleader and why, various opinions were given.

Cheryl Baxter- I enjoy being a cheerleader because I get a good feeling when I am able to support our school through victory or defeat. And I was also able to meet alot of people.

Debbie McLachlin- I like being a cheerleader because I have the opportunity to cheer for my school teams and to back them up whether they are winning or losing. I feel honoured being able to represent my school and to show that SCITS is No. 1.

Donna VanRooyen- I enjoy being a cheerleader because it makes me feel as if I'm giving our school the best support I possibly can. I enjoy cheering for our teams whether they're winning or losing, but no matter how we rate with the other schools, SCITS will always rate No. 1 to me.

The cheerleaders owe all their thanks to their coach Mr. Scott, who gives alot of time and effort to make them a winning squad.

## KNOW YOUR TEACHERS

KNOW YOUR TEACHERS

Miss Pippard

"It's nice to be back," were the words of Miss Pippard, our new Home Economics and Canadian Family Prospectives teacher. Being a graduate of S.C.I.T.S., she observes very few changes in the school and the students. Student's council was extremely active in the years she attended here. The chocolate bar drive was a great success on the part of the student's council.

A fan of football, Miss Pippard hopes to see the BOMBERS win the championship. Since she never missed a football game in her five years of high school, she hopes to continue that record and attend each and every game this season.

Upon graduating from S.C.I.T.S. Miss Pippard went on to continue her studies at the University of Western Ontario and then on to Guelph. Her major was in Consumer Studies.

For her first year of teaching Miss Pippard was situated in Peterborough. The beautiful autumn was Peterborough's main factor to her

Know Your Teachers

Mr. Schierenberg

One of our new shop teachers is the welding teacher Mr. Schierenberg. For the last 5 1/2 years Mr. Schierenberg had taught in Chatham.

Since he had his schooling in England, coming to Canada's way of teaching was somewhat of a change. The only real difference was the governmental exams.

Mr. Schierenberg finds the spirit here at SCITS good. He feels that getting out for football games is a good idea.

The problems Mr. Schierenberg finds with his shop is the condition it is in. At the present time he is negotiating with the board to have the welding room brought up to safety standards. As of now the shop is run down, doesn't have the proper ventilation and is unsafe because of the fumes, which gather due to improper ventilation. The grade elevens and twelves are building some of the facilities and hopefully by spring it will be brought up to the standards of the other schools.

Mr. Schierenberg finds the classes good and he hopes his stay here at SCITS will be enjoyable as well as rewarding.

## TOUGH SLEDDING

All the Universities are strongly recommending Grade 13 English, Math, Science, Social Science and a 2nd language.

Starting Sept. 77 Western is going to require Math or a 2nd language for and program..

The marks required for competitive programs such as Engineering, Nursing, any medical area and Physical Education go higher every year. Required percents vary with course and University. The required marks are going higher because of more people applying and the universities can afford to be selective.

The universities are concerned about the students abilities to express themselves in English and doing basic Math. Testing is going on in first year programs of Math and English to find out whether or not to upgrade English and Math in the universities and higher schools as well.

In the future its going to get tougher so if you're planning to go to University or College gat your nose in those books.

**Charles Hairstyles**

336-3552 344-2632

As I entered the school bright and early Tuesday, Sept. 7, I noticed large groups of unfamiliar faces. They were all in their places eagerly awaiting the start of homeroom classes. Excitement was in the air. Another long awaited step in the road of life—their first day of high school.

About a week later I approached some of these students to get their views on Grade Nine. Some would appear bold and eager, some were shy and reserved, while others would not utter a sound and quickly headed for a destination ahead-looking neither left nor right.

After a short while I noticed that a few of these students had mastered the art of conversation.

Questioning would often times dumbfound the person to a state where he would not reveal his former school's name or opinion of SCITS.

However; the overall judgement was that SCITS is better than most local public schools, but not all first year students like high school life as was clearly demonstrated.

When the topic changed to teachers, things were not the same as Grade Eight. I was handed stories of an unmerciful onslaught of homework—physical violence in the Science Department and traditional rumours of madmen and four-year-olds in the staff rooms.

One thing that I found is that very few Grade Nine students are involved in activities after school. This must change, for Scits will only be your school if you participate. The Southerner would like to welcome all new students to the school for the coming year.

Al Tithecott

## Last Summer

What did you do in the Summer?  
—by Dave Knight

"Went to the Tull concert, really good, went to our cottage in Collingwood, went swimming and fishing. Went to a few parties in Corunna and Sarnia, pretty boring. I babysat during the day and went to a few fairs."

—by Maureen Fowlie  
Gr. 12

"Worked all summer went to some ball games, went to London a few times, went camping, and went to the Port Huron Fair."

—by Colleen Mackenzie  
Gr. 12

"joined the Stag Island Burn Outs."

—by Mike Nettleton  
Gr. 12

"Worked on my Aunts Farm. A cattle farm. Went horse riding quite a bit, and worked the tractor. Travelled to Toronto, the exhibition etc. Met my relations."

—by Chuck Rawson  
Gr. 12

"Went out West to Calgary Stamped, then the West Coast, also California. Went to Las Vegas but only 21 and older are allowed in the Casinos."

—by Steve Geotz  
Gr. 12

"Worked at Petrosar as a pipefitter did a bit of camping up north."

—by Ed Nicols  
Gr. 12

"Worked a bit this summer. Travelled quite a bit. Went to Paisley Ontario, which is up north. Went to Kingston and Hamilton, thats about all, a boring summer."

—by Sam Kinsmen  
Gr. 12

"Went for a tour around Ontario and went to a few parties."

—by Mayson Carson  
Gr. 12

It seems that after learning about the experiences of some of our students, some of them had a worthwhile summer.

# how to have fun

What did You Do On The Weekends? By Mayson Carson

"I got high and drunk." "Worked on Saturday, and sat around on Sunday." "Went to London, got drunk and stoned." "Saturday got K.O.'d." "Nothing done on Sunday." "Went to the V.I. that's about it." "Got burned out, what else do you do on the weekends?" "Went over the river, went to Bugby Club, went to Forest." "Went golfing and drinking." "Spent the weekend in the Valley." "Did homework all weekend long." "Bummed out all weekend." "Went to the hockey game, got drunk." "Went to my girl-friends, and got caught speeding." "Went to Western Fair, Oxe Box." "Worked all weekend." "Went over the river and drank, also watched t.v.." "Saw a movie, went to friends house." "I don't know, not a hell of alot." "Went over to the garage Saturday night."

After asking several students in the school about what they did on the weekend and seeing the results down on paper I have to come to the conclusion that there are many burn outs. In S.C.I.T.S. who spent their weekend either drinking heavily or getting off in some other manner. A few students I asked were so corrupted by the ways of the world and spent their time doing legal things like going out of town, going to a movie, working hard or doing something, constructive like watching t.v. Anyway who am I to judge? The weekend is a time to revive from a boring week at school and every student deserves a break to do what ever he or she wants.

### BEING BACK MEANS:

1. Learning that the teacher who you thought was a nice guy is a real creep.
2. Learning that last year's darling grade nines have turned into mischeivous little devils in Gr. ten.
3. Eating the french fries in the cafeteria, putting your fork in one, and finding out it's alive.
4. Finding out you know more than your Math teacher.
5. The summer holidays are over.
6. Breaking in your new teachers.
7. Being an anonymous stranger in a strange land.
8. Having to start the count down all over again.
9. Having the fresh thought of knowing that I will not have Mr. Bennet in any classes, slumber in my mind.
10. Having my Mother pre-sign a pile of excuse notes.
11. Being caged again.
12. Being that much closer to the summer holidays.
13. Seeing that the girl who you were crazy about all summer, now has terminal acne.
14. Realizing that you once more have to fake out your parents by carrying your school books as if you really used them.

### WHAT'S FUN AT S.C.I.T.S.?

What do the students at Scits do for laughs? Checking around the school, I find that the students will do most anything to relieve the everyday routine of school. Quite often though, relieving the everyday routine becomes as routine as the regular burnouts have already proven.

Different ideas are used to pass the hours here at Scits throughout the day. Some of the fun things are:

- 1) Loosening the salt shaker lids in the cafeteria.
- 2) Initiating the grade nines behind the teachers back.
- 3) Smoking in the back of the science room (formerly done in Mrs. MacKinley's room)
- 4) Telling Neufy jokes to Mr. Sprenger.
- 5) Smoking in the washrooms.
- 6) Holding up the wall in front of the cafeteria.
- 7) "Letting it Die" with Mr. Little.
- 8) Wearing a wig to class to see if you'll be recognized.
- 9) Decorating home forms at Christmas.
- 10) Pinching Mr. Kingsleys BUM.
- 11) Hitting the Valley for lunch regularly.
- 12) Locking your keys in your car - Right Mr. Capes?
- 13) Stepping back 200 yards to smoke - - -
- 14) Leaving dishes on the cafeteria tables.
- 15) Admiring Mr. Carnegie's BODY; He loves it.
- 16) Singing Scits cheers from on top of the cafeteria tables.

Not all of these are legal nor are they all considered fun by Mr. Edgar, but these are the things considered fun for a break in the routine by our STUDENT BODY.

# KNOW YOUR SCHOOL

Have you ever wondered about some of the things that have happened in the history of our school? Like, for instance, when it was built, who the youngest student ever to attend was, and things like that? If so, read on, and you may learn a little more about this great school of yours.

To begin with, the "new" building was built in 1922. It took the place of the old Sarnia Collegiate building on London Road which served as a public school until it was torn down recently. The new school, on Wellington Street cost a total of \$700,000 to build. SCITS was not officially opened until Friday, Oct. 27, 1922, although the students started attending classes on Sept. 6 of the same year. In 1923 the school had gotten the new name, Sarnia Collegiate Institute and Technical School.

The first principal of the new school was a man by the name of D. A. Campbell. He was principal from 1922-1925. The youngest pupil ever to attend SCITS was a girl named Margaret Alexander, age ten years and eight months, in the year 1928-29.

The most outstanding scholar of the school was Elsie Ritchie, who won four scholarships with fifteen firsts in her Upper School Examinations. This was in the 1932-33 year.

In sports, there were some outstanding teams. In 1922 and 1923, the rugby team, coached by Jack Richardson, won the rugby Championships for both years. Again in 1934-35, the Senior Rugby team won the WOSSA Championship. In 1936-37 the Junior Rugby team won the WOSSA Championship.

In 1952-1953 the football team lost only one game, but it was the W.O.S.S.A. In 1953-1954 the Blue Bombers won five out of seven games with only forty-seven points scored against them. S.C.I.T.S. won the city football championship for three consecutive years, from 1963-1966.

In girl's sports, the basketball team won the W.O.S.S.A. championship cup. They won the championship again in 1929-1930. There was a girls' hockey team in 1923-1924, and also a boy's team.

In other sports, the S.C.I.T.S. Gymnastics team won W.O.S.S.A. and the Canadian National Exhibition in 1933-1934. The next year the gymnasts won the WOSSA championship for the third consecutive year.

What happened to the school during the depression and the war years? During the depression in 1931-1932 the collegiate, a publication put together by students, didn't seem to be made that year. In 1940-1941 there was no yearbook published because of the second world war. S.C.I.T.S. could not participate in W.O.S.S.A. public speaking competitions because of wartime gasoline rationing in 1942-1943. W.O.S.S.A. was discontinued in the years 1944-1945 because of wartime conditions.

Mr. Edgar

Most of the Students at SCITS think Mr. Edgar is a monster. I don't think this is true. If you talk to him in a reasonable manner, he is reasonable. But if you skip constantly, you are going to get on the bad side of him. After all, that's his job - to stop people from skipping and try to keep them in school. If you don't have an excuse for missing school, you are just wasting your own time and education.

Mr. Edgar represents authority, something I and likely every-one else dislikes. Authority stops people from doing things they want to do. I think this is the most popular reason for students of SCITS hating Mr. Edgar.

## Stratford Trip A Success

You should have been there. All of you poor souls who didn't make it to Stratford this year really missed out. According to the people that did go everyone really enjoyed themselves.

Two of everybody's favorite yellow school buses pulled out of the back of SCITS at 9:30 in the morning, September 23, and we were on our way.

The trip down was relatively quiet. Everyone was still asleep. When we arrived we were wide awake and ready to go. Downtown Stratford was invaded by hungry students looking for restaurants. The most popular food was Chinese and the most popular restaurant was the "Golden Bamboo." After all our tummies were full we returned to the theatre to find our seats.

The play, "Merchant of Venice," was very entertaining. The acting was exceptional and the costuming was very appealing to the eye. There were few points that could have been changed but how can you be critical of something that is supposed to be the epitome of Shakespeare.

After the play was over we all climbed aboard the bus again and waited for a few of the slower students. When everyone was aboard we pulled out and headed home. It was a good day for all.

## A SICK SITUATION

Last Friday's football game was a disgrace to the students of Sarnia and Lambton County. Not on the playing field, where game, well-conditioned student athletes fought courageously with superb display of skill and stamina — but rather, in the stands among the fans.

Our schools' lunatic minorities showered eggs on one another, badmouthed police (whose duty it is to maintain control), and fought and pushed people in and from the stands. Their language would make sailors blush.

What does this mean to us, the average student? Simply this: increased policing, more strict accounting of people who are allowed to see the games and if these measures fail the cancellation of all football.

## CHOCOLATE BAR SALES

This year the grade 11 and 12 Marketing classes, with the help of other students around the school, are selling chocolate bars to help with the activities around the school. The Marketing classes have taken chocolate bars around to the homerooms and each person takes a couple and sells them. Next week they will be starting a street blitz, where they go from door to door selling these bars.

There are 6,440 bars to be sold and 3,200 bars have been sold thus far. Joy McLean has sold the most at 203 bars and 9G and 9K are tied for first in class sales at 174 bars.

If you would like more activities in the school, then why not support it? Buy a chocolate bar now or take a couple and sell them to your friends! Where's your school support?

Vicki West

Ralph Whitney

## STUDENT COUNCIL

Back to school and back to last years problems. The biggest one is school participation and spirit. It seems no one cares what happens or who cheers for our school. Well, if no one cares what happens, who is going to make the posters that boast about our great team or show our spirit. Who is going to arrange dances and tell the students of S.C.I. & T.S. what is happening? Well, I know this much that I for one care and our president Warren Rude and Vice President Brenda Dearing, plus a few other people who like to get involved and managed to get a dance for this school on Oct. 22, the group playing is ??????. Also during that week we are having the football parade for Thursday Oct 21. That is our last game before the semi finals and I hope our spirit is improved by then.

The council plays a very important part in this school. Council arranges assemblies like Frosh and Sweetheart which is being held on the same day as the parade Oct 21. Also extra activities like Battle of the Bands, Winter Carnivals, etc.. So this is why we need you students to come out and get involved. Remember: its not what the school can do for you; its what you can do for your school.

The Goodies

Joanne Bette and Glenna Cooper of 9K are looking for a winner in the Hippo Chocolate Draw. Help these girls out, buy a ticket on the draw and maybe you will be the one to lift the cumbersome burden of that bar off these two girls. Tickets are just 10 cents each and the draw will take place October 15. BE A WINNER in more than one way. SUPPORT S.C.I.T.S.

## HIPPO DRAW

To take place on Oct. 15.

Deposit this form and 10¢ at the table outside of the Cafeteria today.

Got A Problem? WRITE S.O.S.

I have a terrible problem. There is a girl at this school who bugs the heck out of me, in fact, I can't stand the mere sight of her. She's so phoney and is always talking about my friends and me. What should I do? I can't ignore her anymore. I'd love to mash her potato FACE!

Signed: The masher

Dear Masher:

I know exactly how you feel so it is a problem everyone encounters at least once in their life. However, unbearable this person with the obvious hang ups may seem, the only advice I can give you before mashing her potato face is- IGNORE HER! Soon she will see that her blabber mouth is not bothering you anymore. Then maybe she will zip up and try to make some friends again if it's not already too late.

S.O.S.

I have this class sixth period which is really boring. There is no one I hang around with in my class and most of my friends have a spare sixth period. My boredom is not helping in this class. Thinking of dropping it and taking a spare or triple lunch.

Bored and Confused

Dear B.C.:

First of all B.C. the thing for you to do is think of your future and ask yourself a few questions. Do you need it? Is it really all that boring? Do you only want out because your friends have a spare and you don't? AND really what would you do with a triple lunch? Now that you have thought about it-is it really what you want? Sorry I couldn't be of more help but it is you who has to live with your decision.

S.O.S.

I have this guy in one of my classes with a very bad cause of body odour. I don't want to embarrass him by telling him but I don't want to wear a gas mask to that class.

Pollution Control Board

Dear P.C.B.:

How about asking to be moved to the other side of the room, praying for winter and hope that your friend with Homes Fountry armpits and Gorilla breath finds soap, deodarent and mouthwash.

S.O.S.

I go out with a guy who everybody thinks is a goof. Maybe it's because he likes school and isn't the average burn-out. I can't quite figure out the exact reason but I'm finding that these people are really starting to influence me on my feelings toward him. Deep down I know I really care about him. Why then am I so worried about what people think? And why am I letting them curve my emotions?

Goof's Girl

Dear Girl:

What do you care what people think? It sounds like you have a guy with a good head on his shoulders. It would be different if he wasn't any good and wasn't good to you. If you know deep down you really care about him bring it to the surface and keep it going before he catches on to how easily led you are.

"I trust, Smedley, you've a note from your parents explaining your absence."

### MAC'S MILK

Corunna

Everyday 9 to 11  
862-2151

Future Scope. . . by Coleen MacKenzie

Do you know what lurks in the future? What are your favorite colours, locations and compatible friends? Find out in every issue of The Southerner.

Libra-September 23 to October 22.

Lucky day- Friday  
Lucky number- 6,9  
color-pastel blue  
flowers- aster, violet  
tendencies-justice and fairplay  
compatible friends-aquarius,  
-gemini, leo,  
-aries, pscs  
best location-places of social activities

This month you are very anxious to get things done, you'd be better off doing something creative, rather than sitting around dreaming. Silence and quiet places could be your enemies this month. A chance to travel should be on your agenda.

Favorable days for October:  
2,3,12,14,18  
Unfavorable days are:  
5,19,20,22

Libra people within our school--Beth MacInnes, Lee MacKenzie, Denise Taylor, Pam Wright.

Sagittarius-November 22-December 21

Lucky day-Thursday  
lucky number-9  
colour-purple  
flower-chrysanthemum  
tendencies-optimism  
compatible friends-aries  
leo, libra, aquarius  
best location-great outdoors

You'll be in high spirits this month for people will be very kind and affectionate towards you. Go out with good compatible friends and avoid people who encourage you to go in the wrong direction. Be alert and take part in things going on around you. Keep in touch with old friends.

Favorable days are:  
1,3,10,21,29

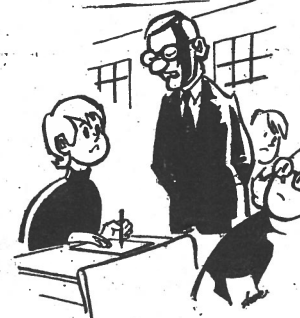

Unfavorable days are:  
4,17,18,26

Sagittarius people within our school: Lori Little, Dave Wardell, Jay Arundel, Earl Bishop.

Scits Poll:

"Do you think this school is "dirty"?"

Chris Fields 11  
"It is dirty."

Becky Last 11  
"Do you mean grubby-like?"  
"No, I like this school."

Karen Sheldon 10  
"Ya!"

Sharon Arnold 12  
"It's okay if you like a dirty school. No, its alright. I don't mind it from the inside, but outside at the back it doesn't look so good. Maybe the yard needs cleaning."

Jackie Forbes 12  
"The outside's filthy."

Karen Goodwin 12  
"Ya, in some places, like the gyms."

Don Day 12  
"This is the best school in all Ontario."

Linda Kirk 12  
"I think everything's okay except for the gyms."

Kevin Goetz 12  
"What do you mean unclean? No...Ya..."

Ken Thompson 11  
"Not really, Why?"

Mr. Springer  
"oh,no."

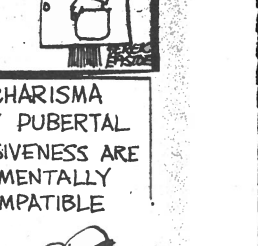

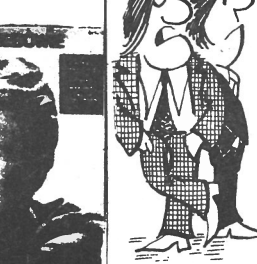

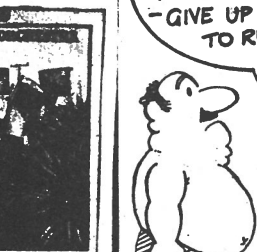

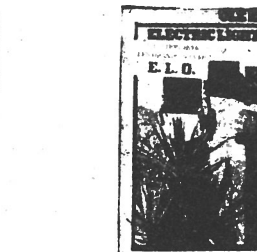

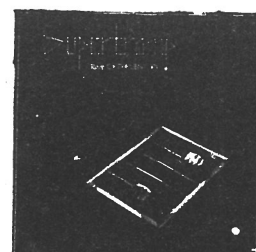

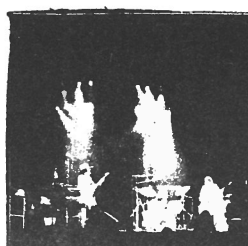

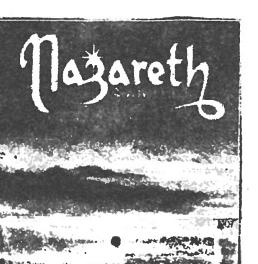

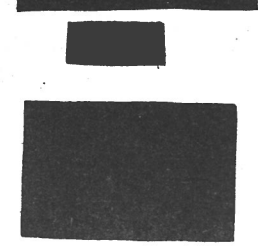

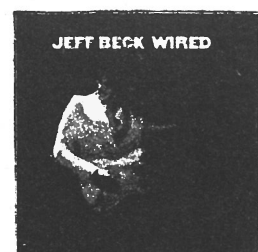

Mr. Scott  
"Oh no,as far as being clean. I think its fine in that respect."

Mr. Edgar  
"No I don't think so, you know with every building you have the problem of age. I think the caretakers do a good job. It's harder because it's older building. There's also been a lot of construction around here lately. I think they've picked good colours to paint with too. No I don't think so."

On the whole I think Scits is a clean school. There aren't any rotten apples lying in the hall at least. I think the goal posts and fence in back could stand a new coat of brilliantly coloured paint. Let's hear it for Scits.

SMILE:  
WE'VE GOT A VICTORY COMING

Scits Blue Bombers, "a highly competitive team, with great spirit."

This comment was repeated more than once during interviews with this year's four football coaches. The team is smaller in size this year, but with more experience, new players coming up from juniors, and excellent coaching, we'll be fighting it out for first place.

Coaches include Mr. Smith, who is head coach and offensive line; Mr. McLellan who is the defensive back coach; Mr. Hall who coaches the defensive line; and Mr. Scott who is the offensive backfield coach. All agree that Northern will be our biggest problem, having its full offensive line back. Last year Northern was also a problem. "Since we beat them the first time we played them, Scits just wasn't hungry the second time" commented Mr. Smith.

But both defence and offence are equally strong this year. Each and every position on the team is occupied by a hard working, high spirited player, and together they form a winning team which is backed up by a winning school full of supporting fans. When asked "Where do you think the BOMBERS will end this year, very definitely without any hesitation No. 1."

SO SMILE, WE'VE GOT A VICTORY COMING

## SCITS GAMES

### A Football loss, but beneficial

The exhibition game against St. Thomas was lost by Scits Blue Bombers with the ending score 20 to 1. Although Scits lost, everyone feels still, that we have a good chance to win this season.

Two of the team's coaches, Mr. Smith and Mr. Scott, felt that a couple of the reasons for the team losing, were that Scits was not only out-weighted by the other team, but also that St. Thomas had 28 players returning from last season, whereas, Scits had only 27 players dressed. Fifteen of these players are rookies. Coach McLellan felt that the team had guts, and they were not afraid of the size of the St. Thomas team, they were mentally strong. Other strengths mentioned by Mr. Hall were that the boys could move the ball, the offensive running was good.

Coach Smith felt that one of Scits weaknesses was that the defence needed work. He also pointed out that the accent was not put on the team's defence but on the offence running practice's. They will work on it for the season. Another obvious weakness was the team's size.

All of the coaches emphasized that the importance of the game was to see which players could play in what position, so that there was a lot of switching around during the game. Mr. McLellan pointed out that St. Thomas never scored a touchdown by running up the middle, but had to run around us in order to score. He also exclaims that the game gave the team a good physical workout and that this would probably be the hardest game the team would ever play.

Everyone played well but there were a few outstanding players such as the two line-backers, Joe Clark and John Frangis. Mr. Smith and Mr. Hall felt that these two Bombers played their positions very well. The only loss that Scits had in this game was the injury of John Frangis.

Mr. Scott felt that the game was good to show the rookies what a real football game was like (a feeling that you cannot get from the practises.)

St. Thomas was a good strong team and knew more moves than Scits because of the number of players they had come back from last season. We wish them luck on their next coming season in football. This game got our team in better shape to face the season awaiting them. One thing that all the coaches agreed on was that the team wouldn't have played as well if the students cheering them on and the whole team didn't have such great spirit!

On Friday Central came from behind to upset SCI&TS by a score of 22-13. SCI&TS opened the scoring early in the game with a touchdown by Craig Postil, Louis Ciccini kicked a convert making the score 7-0. Scott Paisley scored the second touchdown in the second quarter, but the attempted at the convert failed. In the third quarter Central achieved two touchdowns and two converts putting them ahead by a single point. Central furthered their lead by bringing down Scott Paisley in the end zone for a safety making the score 15-13. In the fourth quarter, Central came back to score a final touchdown and the conversion making the final score 22-13.

Coach Scott described the game as being "too long, and too hot." Our football man, Mr. (ah) Rome would not give his professional opinion, all he would say was "I'm afraid I didn't see too much of the game myself."

While the players battled it out on the field, some devates from Central started an egg battle on the grand stands which resulted in some facial changes of the fore mentioned groups. Way to be CLAYTON!!!

I was amazed to see the number of girls trying out for the various teams this year. This is what SCI needs—more PARTICIPATION. The more students coming out to the try-outs result in better teams.

It's not too late for some of you undecided ones to try out for a team, as long as it isn't basketball, tennis, or cheerleading. They are already picked. There is badminton, track and field, cross country, gymnastics, folkdancing and volleyball later on in the year. So, get in shape, girls!

## Senior & Junior Girls' Basketball

### Seniors

The senior team looks to be better than previous years. The competition will be tough, but the players are experienced, having played at least two years with each other.

Jill Knight

"We are a balanced, unselfish team and not just a collection of individuals. We love to play with positive enthusiasm."

### Juniors

The Juniors have quite a few new faces on the team, since only three remained from last year. It's a young team that will do well this season.

PRESENTS:

MUSIC CRAP

Over the summer the most listened to album has to be Peter Frampton Comes Live. With his hit songs like "Show Me the Way," "Something's Happening" and all the other great songs. No one heard of him before but he was there all the time. Frampton plays a Black Les Paul and said to be equipped with a Charles Lebon pickup. For those who don't know what I'm talking about its the name of his guitar. For us concert goers Frampton is playing October 8, 9, 10 at Madison Square Gardens in New York if any is interested.

The death-masked letheroid nightmares called Kiss brought out their best album ever Destroyer. I also heard they have another album out but this information is not available at the time.

Canada's answer to hard Rock Rush which just finished recording their live album. This should be out in the record stores soon. The material for this album should come from their last or only four albums "Rush," "Fly By Night," "Caress of Steel," and "2112."

Aerosmith brought out another album called "Rock" which to what I've heard is what some people think of it. Others say its great. I only had a chance to hear some of it and what I heard didn't really suit my liking. I know Aerosmith is good and probably do better.

Beach Boys and their California Surfin music has Brian Wilson back with the group. I'm not much of a Beach Boy fan but they are good. I guess those old songs never die as long as the BeachBoys stay around.

The Beatles will never die but will they ever get together... who knows. Yes they might if the world calls for them that is the start of Beatlemania as it has already started in England. Out of the top 100 songs in England the Beatles have 23 of them. This Beatlemania has spread to America and is catching with the start of a album called "Rock and Roll Music" with songs like "Bad Boy," "Helter Skelter" and "Back in the USSR". The best time the Beatles played in concert was 10 years ago in San Francisco's Candlestick Park. Since then or should I say recently they were offered 50 million dollars for one performance but they refused.

Well, I hope I have covered a group for everyone and I like you to co-operate and fill out this survey for me so I know what the school likes:

I think the:  
 BEST GROUP .....  
 BEST ALBUM .....  
 BEST SONG .....  
 BEST GUITARIST .....

Take this and put it in the Southerner mailbox or give them to me.

Are you in fashion ?

This is an article for all who want to be in fashion. Let's start with something that is universal. Blue jeans, that all purpose, everyday uniform, is beginning to lose popularity among the ladies at Sci&ts these days. Instead, they're going in for the Simpson Sears catalogue look. Matching skirts, sweaters, blouses, cardigans, slacks and of course matching jewellery to top off the effect. For those of us who are poverty stricken this could be a little hard on the budget.

Of course, if you do choose to wear jeans try not to get Levi's or GWG's. Unforgivable. Get something in a European cut. The most popular have wide legs and stars on the back pocket. The newest fad in jeans are the white pantomine and baggy painter pants. Usually these white jeans are topped with a colourful T shirt.

Jeans are still very popular among the men at Sci&ts and I'm sure the ladies approve. Like the Europeans say, jeans were the best touche watching pants ever created.

Kathy Climie
